

Submitting a DCI Support Ticket for EVV Aggregation Issues & Resolutions

Description: In this topic, the user will learn how a super user can submit a support ticket to DCI for EVV Aggregation issues and resolutions. As a reminder, the organization must log in to the Aggregator portal and review aggregation results daily. The Aggregator will always be the first point of contact to triage any rejections, as they are the experts on visit failures, reasoning, and verbiage. If the visits require DCI intervention to re-aggregate, please submit a Help Desk support ticket (Zendesk). Follow the steps below to submit a ticket to the DCI EVV Support Team. A support ticket will need to be submitted for each group of visits by EVV aggregation topic (issue and resolution), i.e., live-in caregiver exception codes, late call-in exception codes, reason codes, etc.

*Please note: Login credentials for Help Center are required to submit a support ticket to the DCI Support Team. If you do not have login credentials, contact your DCI Account Manager for assistance.

Role Required: Super User

Permission Required: N/A

1. Navigate to the DCI Help Center by clicking **Help** in the upper right-hand corner of the main menu on the DCI Home screen
2. Click **Submit a Request**
