Why am I receiving the alert, "You don't have permission to access this page"?

- DCI is designed to be a HIPAA-compliant system that safeguards the information of both clients and employees

- Users have the ability to view details of any object (i.e., client, employee, residential or day program, etc.) that is in the cost center(s) associated with their role. The system will not allow users to view the details of an object that is not in their cost center(s).
