

February 2022 Release Notes

A DCI mobile app update will be required Thursday morning, February 24th, for our maintenance release. The mobile app update will be available to all users as early as **Thursday, February 24th**. To ensure all users are on the most up-to-date version, users will be forced to update their mobile app as early as **Friday, February 25th**.

While most of the features of this release happen behind the scenes, we are pleased to inform you of an enhancement to the Guardian profile. The Guardian profile will now contain the Total Hours widget on the dashboard to help guardians effectively manage the hours of service for clients that are linked to their profile. To use the Total Hours widget:

1. Enter the Client's name into the client name field
2. Click **Search**
3. The current week will display
4. Use the arrows to navigate different weeks
5. Click Reset to clear the Total Hours widget

Here are the Feature Requests included in this release:

Feature Requests

- PORTAL-1910 Include Client Total Hours Per Week widget on guardian profiles and give them access to any client they are a guardian for
- PORTAL-1201 Employer Role Incorrectly Gives Access to Cost Center on Funding Account

Although this is a maintenance release, it still requires a bit of downtime and an app update. The system will be unavailable to all users from **Wednesday, February 23rd at 11:30 PM to Thursday, February 24th at 1:30 AM MST (2 hours)**. Be sure to update your app on the 24th! Please reach out to your DCI Account Rep if you have any questions.
