

EVV Locations

Description: In this topic, the user will learn EVV locations functionality. EVV locations specify and record approved work locations per electronic visit verification requirements. EVV locations may be required for hourly punch entries and can be used for group services, residential and parenting programs, and day programs. EVV locations can be manually inputted or imported.

*Please note: To require EVV locations at clock in and clock out, enable the setting Require EVV Locations on the service code for hourly account types.

Role Required: Super User, Supervisor, Employer

Permission Required: Varies by object

Managing EVV Locations

The most common use of EVV locations occurs on client profiles, as they are the locations that will be available when creating an hourly punch, however, EVV locations can be added to any of the following profiles:

- Client
- Employee
- Residential Program
- Day Program
- Group Service
- Parenting Program

Create a Profile with EVV Location

1. Log in to DCI
2. Select **Home** on the main menu
3. Select the **profile type** on the submenu (Client, Employee, Group Service, Residential Programs, Day Programs, or Parenting Programs)
4. Click **Actions**
5. Select **Add New (profile type)** (Client, Employee, Group Service, Residential Programs, Day Programs, or Parenting Programs)
6. Complete the form wizard
 - i. The phone number will be associated with the EVV location.
 - ii. When using the IVR phone system to create a punch entry the system will associate the EVV location linked to the phone number.
 1. If no phone number is listed the user will be prompted to make a selection.
 - iii. The phone number listed on the EVV location for a client must be unique
 - iv. Must be the client's landline for EVV compliance (connected to the location)
 - i. DCI does not offer phone number verification. However, if the organization has verified that the phone is a landline number, it may be marked as verified. This field is used for reporting purposes only.
 - i. This list is configurable via **Settings > Custom Dropdowns**. Examples might include landline, mobile, apple, android, etc.
 - i. This list is configurable via **Settings > Custom Dropdowns**. Examples might include local or national carriers such as AT&T, Verizon, or T-Mobile.
 - i. Active - Location will be available when entering a punch
 - ii. Inactive - Location will be hidden when entering a punch
 - a. To use EVV locations for the program complete the EVV locations tab
 - b. EVV Location Name - This should be something recognizable by the employee providing services
 - c. EVV Location Type - Residential, Commercial, or Public Space
 - d. Address - Enter the EVV location address
 - e. Phone Number (optional)
 - f. Phone Verified - Click **Yes** if the phone number has been verified. Select **No** if it has not.
 - g. Phone Type is an optional field
 - h. Phone Carrier is an optional field
 - i. Begin Date is a required field
 - j. End Date is an optional field. If no end date is selected, the EVV location will always be available.
 - k. Status
 - l. Check the Primary checkbox if this is the location that should auto-populate on the new entry form wizard. Only one location can be primary.
7. Click **Save** and **Yes** to confirm
8. The system will verify the EVV Location is a valid address. If it is not, the error will read, "Google Maps does not recognize this Location Address." Enter a valid address to continue. If it is a valid address, select **Yes** to confirm.
9. To view the EVV location details click the **EVV Locations tab** on the profile details page

Add an EVV Location to an Existing Profile

1. Log in to an appropriate profile
